

ENVIRONMENTAL POLICY STATEMENT

BAUER Foundations Australia Pty. Ltd. is committed to the protection of the environment and continuous improvement in the provision of building, infrastructure and civil construction services, environmental works and piling and ground retention systems.

In implementing this policy the Company will show genuine respect for the environment by:

- Establishing and maintaining adequate procedures to control all aspects of the company's construction activities so as to remove or reduce environmental risk.
- Should an environmental incident occur, pre-planned measures will be employed to mitigate the effects of any environmental damage.
- Fulfilling our compliance obligations inclusive of relevant environmental legislation including in assisting our customers and other relevant stakeholders to comply.
- Monitoring and reviewing the company's environmental performance in achieving prescribed environmental objectives and targets which will also assist with continuous improvement.
- Monitoring appropriate technology and management practises to keep up to date with new environmental strategies and continually improving our Environmental Management System to enhance environmental performance.
- Maintaining and communicating this Policy to all site personnel including subcontractors and making it available to interested parties.
- Being open and active in communication with our customers, statutory authorities and the public.

The Environmental Objectives and Targets of **BAUER Foundations Australia Pty. Ltd.** contribute to ensure that the commitments to the environment will be fulfilled by the implementation of appropriate site specific Environmental Management Plans (EMP's) for each major project following the clients guidance.

All work processes to be monitored so as no harm comes to the environment on work sites we control.
